## Sunrise Precision Solutions

.....

Increasing yields is good thing, but how much does that yield increase cost per acre?

Plots and trials play a vital role, and the Sunrise Precision Solutions (SPS) team is setup to handle processing many different types of trials. Throughout the Sunrise trade territory, the same protocol is used so when the data is collected, it is consistent for the entire cooperative.

From seed variety plots to fungicide applications, the SPS team plants a wide variety of trials each year based on what is relevant to our customer-owners. These plot and trial results bring localized information to customers and aid decision making around the incorporation of products and/or management practices.

***Our goal is to provide our customer-owners with multiple years of data to help determine what will provide a positive ROI on the farm.***

# Seneca S-1

Planting Date: 5/21/2022  
 Row Width: 30"  
 Planting Depth: 1.25"  
 Started on South side with CP2520

Planting Population: 140,000  
 Tillage: No-Till  
 Harvest Date: 10/29/2022

Local grow how.

PCT | Sunrise® is a progressive crop technology company that is owned by Sunrise Cooperative, Inc. We offer a product lineup that encompasses precise blends of starters, foliars, finishers, adjuvants, biologicals, seed treatments, micronutrients, herbicides

and nitrogen management products that can contribute to healthy crops. PCT | Sunrise products are specially formulated to help you improve plant health and enhance your crop protection strategies at precise times throughout the growing season.

Growers choose PCT | Sunrise for our proven ability to maximize yields, provide excellent crop safety and work well alongside other crop protection products. Sunrise Agronomy Solutions Advisors, along with PCT Agronomists and Technical Sales Leads, offer growers individualized plans and guidance on how to enhance plant development. Blends are specially formulated with the goal of optimizing plant health and providing a strong return on investment for your farm.
